Subject: American Planning Association's Community Planning Assistance Program - Pro Bono Planning Support Available

Please forward this email to your governing body.

I am writing to let you know that the American Planning Association, in partnership with The Center for Community Planning, is beginning it's third round of Community Planning Assistance Projects. The CPAP program, which provides volunteer city planners to support local planning activities, is now entering its third year, and has completed about a dozen project during that time. Information about the finished projects can be found on the APA-NJ web site at:

https://njplanning.org/about/community-planning-assistance-program/

We are now looking for project proposals from communities in New Jersey. I encourage you to pass this email on to your municipal governing body so they can consider submitting a proposal.

If you have any questions you can contact me at this email address.

Tom Schulze
CPAP Coordinator
