A. Project Specific Provisos

1. That pursuant to N.J.A.C. 7:10A-1 et. seq., an appropriate public wastewater collection system licensed operator will be required for your system.
2. That all sewerage conveyance facilities which are to be abandoned shall be emptied of wastes and either removed or abandoned in place in a manner which is acceptable to the administrative authority.
3. That except as provided in N.J.A.C. 7:14A-22.4, any future sewer connections into the sanitary sewer system approved herein will require a treatment works approval from the N.J.D.E.P.
4. The issuance of this permit does not exempt the applicant of the responsibility to comply with all other permitting and regulatory requirements of the Department's Land Use Regulation Program, as applicable.
5. That a mapping revision or waiver must be obtained from the USEPA Region 2, 290 Broadway, New York, NY 10007-1866, prior to the initiation of construction. You may contact Grace Musumeci, Chief, Environmental Review Section, Strategic Planning and Multi-Media Programs Branch by calling (212) 637-3504 with any questions regarding this matter.

B. Custom Requirement

1. That it is the applicant's responsibility to obtain all Federal, State, and local approvals that may be required for this project.
2. That this permit is issued for zero flow and does not guarantee the Department's approval of future connections into the sewer system approved herein. GENERAL CONDITIONS FOR TREATMENT WORKS APPROVALS**Section A. GENERAL CONDITIONS**

1. This permit is revocable, or subject to modification or change, at any time, when in the judgement of the Department of Environmental Protection of the State of New Jersey such revocation, modification or change shall be necessary.
2. The issuance of this permit shall not be deemed to affect in any way action by the Department of Environmental Protection of the State of New Jersey on any future application.

4. No change in plans or specifications shall be made except with the prior written permission of the Department of Environmental Protection of the State of New Jersey.
5. The granting of this permit shall not be construed to in any way affect the title or ownership of property, and shall not make the Department of Environmental Protection or the State a party in any suit or question of property.
6. This permit does not waive the obtaining of Federal or other State or local government consent when necessary. This permit is not valid and no work shall be undertaken until such time as all other required approvals and permits have been obtained.
7. A copy of this permit shall be kept at the work site, and shall be exhibited upon request of any person.
8. No treatment unit or conveyance system may be by-passed which would result in the discharge of untreated sewage into any of the waters of the state.
