RE: In the Matter of the Provision of Basic Generation
Service for the Period Beginning June 1, 2015
BPU Docket No. ER14040370

Dear Sir/Madam:

We herewith serve upon you a copy of a Public Hearing for Basic Generation Service Charges ("BGS") procured by Jersey Central Power & Light Company ("JCP&L") on behalf of its BGS customers and recovery through its BGS charges of New Jersey Board of Public Utilities ("BPU or the Board") approved changes in capacity performance costs.

PLEASE TAKE NOTICE that the BPU has scheduled a public hearing on this matter at the time and place set forth in the enclosed Public Notice.

Copies of the Board's order and the JCP&L compliance filing, tariff and rate schedule are available for inspection at the offices of the Board of Public Utilities, 44 South Clinton Avenue, 9th Floor, P.O. Box 350, Trenton, New Jersey.

We will be pleased to furnish you with any assistance or additional information that you might reasonably require.

Sincerely,

Mark A. Mader

NOTICE TO JERSEY CENTRAL POWER & LIGHT COMPANY CUSTOMERS

Notice of Public Hearing for Basic Generation Service Charges (BGS) Procured by JCP&L
on behalf of its Basic Generation Service Customers and Recovery through
its BGS Charges of NJ BPU-Approved Changes in Capacity Performance Costs

Docket No. ER14040370

TAKE NOTICE that, on November 21, 2014, the New Jersey Board of Public Utilities (Board or BPU) issued an Order that approved the Basic Generation Service (BGS) Auction process for procurement beginning June 1, 2015, and addressed a potential unanticipated change to the PJM Reliability Pricing Model (RPM, Capacity). BGS is the electric generation supply provided to all customers who do not purchase their electricity from a third-party supplier. If PJM should receive approval from the Federal Energy Regulatory Commission (FERC) to implement the change to RPM, the BPU has authorized Jersey Central Power & Light (JCP&L or the Company) to recover this increase in capacity costs through an increase in the BGS rates. The Board also directed the Company to conduct a public hearing in its service territory with respect to this issue. The Board's Order and the Company's filings are available at: <http://www.bgs-auction.com/default.asp>.

The final price for BGS-FP supply resulting from the BGS-FP auction conducted in 2014 was \$0.08444 per kilowatt-hour for a 36-month supply period. For the BGS-CIEP auction conducted in 2014, the Generation Capacity Charge cleared at \$254.79 per MW-day. The final auction clearing prices for the BGS supply procured in the 2015 BGS-RSCP and BGS-CIEP auctions may be higher than or lower than the prices obtained in the 2014 auctions. Auction prices are converted to customer charges, which may be higher than or lower than current charges, depending on the outcome of the auction, consistent with market conditions. BGS-RSCP and BGS-CIEP rates may change to reflect any increases or decreases in these FERC-approved capacity costs.

PLEASE TAKE NOTICE that the Board has scheduled the following date, time and location for a public hearing on the above change resulting from the proposed change in the PJM RPM so that members of the public may present their views. The hearing will continue until all public witnesses are heard. Information provided at the public hearings will become part of the record of this case and will be considered by the Board in making its decision.
