**Re: Jallad – Single Family Home
Block 7100, Lot 66
Program Interest No. 435442
Activity No: CSD120022**

Dear Ms. Semple:

On November 18, 2013, I wrote to you on behalf of Mazouz and Tomasa Jallad regarding certain assumptions set forth in your November 13, 2013 correspondence, which we believe are incorrect. For instance, I have previously forwarded to you a copy of the ruling made by the Honorable Thomas L. Weisenbeck, A.J.S.C., wherein he determined that the General Store was, in fact, a lawful pre-existing structure. Consequently, we believe that the impervious surface related to the General Store should be credited to the Jallad's overall calculation of the impervious surface.

We also asked if a site inspection could be scheduled to examine the driveway located near the General Store. We are confident that a site inspection will confirm this driveway qualifies as having impervious surface, because of the presence of gravel and stone. We agree that the gravel and stone would not be visible from a review of aerial photographs. Importantly, the location of the curb cut corresponds to the gravel/stone driveway, thereby evidencing the existence of the impervious surface well before August 10, 2004. We have also included recent photographs showing the existence of the gravel and stone in the driveway.

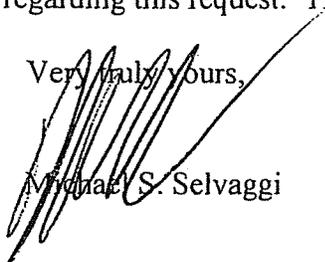

For the Mount Olive Township Clerk's Office

Elizabeth Semple, Manager

Page 2

Mr. and Mrs. Jallad firmly believe in the lawfulness of their position and are prepared to request an adjudicatory hearing. I believe that such a hearing could be avoided if a site inspection could be scheduled with the appropriate officials from the New Jersey Department of Environmental Protection.

I look forward to hearing from you regarding this request. Thank you.

Very truly yours,

Michael S. Selvaggi
