MES PROJECT NUMBER: 12P-3182-04**

Dear Ms. Masser:

As required by the New Jersey Department of Environmental Protection (NJDEP), Moriarty Environmental Solutions, Inc. (MES), on behalf of Allstate Insurance Company (Allstate) and Mr. Kenneth Klejna, is informing you that we are conducting an environmental investigation at the referenced property. In accordance with N.J.A.C. 7:26C-1.7, MES has prepared this letter summarizing the site conditions and activities that will take place to remediate the contamination.

These activities are prompted by a release of gasoline from an inactive 550-gallon underground storage tank which was removed from the referenced property. MES conducted investigation activities and determined that an area of approximately 160 square feet of groundwater contamination exceeding the NJDEP standards exists at the property. Contamination does not extend beyond the property boundary.

MES recommends that contaminated soil and groundwater be excavated from the impacted area. The property owner is in the process of selecting a remediation contractor. MES will provide you with notification of the remediation activities when they are scheduled.

Karyn Norton is the Licensed Site Remediation Professional (LSRP) for this release. For information on the investigation and/or remediation activities, please do not hesitate to contact me at 267-649-7648 (office) or 610-331-9087 (cell), or Ms. Norton at 267-649-7648 (office) or 610-331-2798 (cell).

Sincerely,

MORIARTY ENVIRONMENTAL SOLUTIONS, INC.
