Co-Operative Pricing Agreement  
Scanning, Indexing, Microfilming, Redaction, OCR & more!**

## Somerset County Contract #CC-0095-13

[www.foveonics.com](http://www.foveonics.com)

April 24, 2013

**Dear Members,**

Foveonics Imaging Technologies (FIT) has been awarded the Somerset County Cooperative for *Document Scanning & Microfilm Services for a third consecutive term*. Under this award FIT can provide small, large & bound book scanning of documents as well as, Indexing, 16mm & 35mm Archiving, Redaction, and OCR services. Members can purchase directly with FIT. To date, Foveonics has provided solutions to several counties, over 50 municipalities and school districts with such through the county cooperative. The new Coop expires in March of 2015.

In addition to the scanning services many of our customers rely on FIT to provide microfilm archiving services. FIT is the leading provider of microfilming services in the region, having archived over 100 million images for the State of New Jersey Motor Vehicle Commission alone. FIT has also produced DARM approved microfilm for 12 different counties in New Jersey.

By utilizing the COOP member's benefits include but are not limited to:

- A stringent selection process which evaluated price, client references and facility inspection from Somerset County Records Committee and New Jersey DARM approval.
- Eliminate time, costs and resources associated with preparing and evaluating the bidding process.
- A complete understanding of the Division of Archives & Records Management (DARM) process, with many certified projects.
- Proven company with county and state document imaging contracts (NJ State Contractor #77800)
- Ability to access and implement project within days.
- Experts in On-Site Scanning (Covered under the SCCP).
- Kodak Certified Microfilm Lab producing over 200 million images for local, county and state agencies.

**Our featured *Green Customer* this month is Randolph Township.**

Randolph Township embarked on a mission to digitize building and planning documents. Randolph Township has utilized the COOP several times and has reduced the time it takes for OPRA requests as well as meeting state guidelines. In the event of a disaster, Randolph Township now has a digital plan in place.

As a **complimentary service** one of our certified document imaging architects can provide a detailed record management analysis. This analysis will be fitted for your agency's needs and provide a solidified concept of how Foveonics can help streamline your record management needs and help keep your records safe.

Very Truly Yours,

Vincent DeTommaso  
VP Sales & Marketing
