Re: Morris County YMCA Dam
NJ DEP File No. 25-67

Dear Mr. Mueller:

This is in reference to the 2012 Regular Inspection Report and the 2012 Compliance Schedule prepared by Christopher S. Adams, P.E. Civil Dynamics Inc. for the Morris County YMCA Dam located within Mount Olive Township, Morris County.

Based upon a review of the Morris County YMCA Dam inspection report, and our existing records, the Morris County YMCA Dam was found to be in UNSATISFACTORY condition. The Bureau of Dam Safety and Flood Control concurs with the findings and recommendations of the report.

Upon review of the 2012 Morris County YMCA Dam Compliance Schedule, the Bureau of Dam Safety and Flood Control has determined that an acceptable time schedule for item submission has been provided.

Please note, per condition #9 of Dam Safety Permit #1405, construction shall start within one (1) year from the date of the issuance of the permit (August 9, 2012) and completed within two (2) years from said date (August 9, 2014). Therefore, construction to rehabilitate the Morris County YMCA Dam must start no later than **August 9, 2013**.

Lastly, you are reminded that in accordance with Permit #1405, a Construction Notice and a Construction Inspection Program must be prepared and submitted to the Bureau two weeks prior to the beginning of construction. A copy of the Construction Inspection Program is to be submitted and approved by the Bureau. Please see condition #5 of the permit for further details.

Due to the unsatisfactory condition of the dam, no extensions will be granted. Failure to submitted the Construction Notice, the Construction Inspection Program and commencement of

construction by August 9, 2013, will result in the Department issuing an Administrative Order and Notice of Civil Administrative Penalty Assessment pursuant to the provisions of the Safe Dam Act, N.J.S.A. 58:4-1 et seq., and N.J.S.A. 13:1 D-1 et seq. and the New Jersey Dam Safety Standards, N.J.A.C. 7:20.

Please note that the lake surface elevation must be maintained at a reduced elevation until construction is undertaken

Should you have any questions regarding this matter, please contact Jillian Lawrence of this office at (609) 984-0859.

Sincerely,

A handwritten signature in black ink that reads "John H. Moyle". The signature is fluid and cursive, with the first name "John" being the most prominent.

John H. Moyle, P.E., Manager
Bureau of Dam Safety and Flood Control
