## **Have an idea for a session at the Congress of Cities and Exposition?**

We're deep into the planning process for the Congress of Cities and Exposition, and we need your ideas. We are working hard to develop conference sessions and want your input. You've helped us identify a number of subject areas of importance and now we'd like to hear what specific programming you'd like to see at the conference. Please take a few moments to pass your ideas along to our team to discuss at their planning meeting next week.

**What's your idea?**

*\* We are looking for suggestions from individuals who work for or represent local government, and are looking for ideas rather than fully developed proposals.*
