Sixth Annual  
Sustainable Raritan River Conference  
*Friday, June 13, 2014*

**The Sixth Annual  
Sustainable Raritan River Conference**

*Valuing Natural Capital and Ecosystems Services*

**Friday, June 13, 2014  
Rutgers Cook Campus Center  
59 Biel Road, New Brunswick, NJ 08901**

**REGISTER NOW!**

This year's conference focuses on the intrinsic values that the Raritan brings to the communities, businesses, and residents (human and non-human alike) throughout the region by exploring the theme of **Valuing Natural Capital and Ecosystems Services**.

In this full-day conference we will meet those who are working on valuing natural capital and ecosystem service concepts, learn how to use such valuations in planning decisions, and discuss real-life examples of how these valuations have changed ecological outcomes. We will also discuss how these practices can be applied in the Raritan region to help organizations, businesses and local governments make better land use decisions.

**Invited speakers (partial list):**

- David Batker, Chief Economist and Executive Director, Earth Economics
- Stephanie Pendergrass Dalke, Project Director, Pinchot Institute for Conservation
- Patricia Elkis, Deputy Planning Director, Delaware Valley Regional Planning Commission
- Dr. Gerald Kauffman, Project Director, Water Resources Agency, University of Delaware
- John Miller, Associate Water Resources Engineer, Princeton Hydro, LLC,
- Elizabeth Schuster, Environmental Economist, NJ Chapter of The Nature Conservancy
- Julie Ulrich, Urban Strategies & Watershed Coordinator, The Nature Conservancy

At this conference, we will also present the **2014 Sustainable Raritan River**

**Awards** – our annual awards for outstanding achievement in efforts to revitalize our region, restore and protect our resources, and promote our area as a premiere place to live, work and raise a family. More information about the awards including how to make a nomination is on our website at [raritan.rutgers.edu](http://raritan.rutgers.edu).

**REGISTER NOW to take the next step towards sustainability for the Raritan.**

***Continuing education credits have been requested for planners, engineers, public works directors, landscape architects, and flood plain managers.***
