Following up on our highly successful conferences in Danville, Virginia, and Chicago, Illinois, we will hold our next conference in Springfield, Massachusetts, from September 15-18, 2014. The conference will focus on the 12-state Northeast Region, including Connecticut, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Vermont plus Washington DC. This region is extraordinarily rich in experience, talent, and representative projects.

At the Springfield Conference:

You Will Learn How Your Community Can . . .

Plan for, monetize, and manage a fiber-based broadband investment.

Develop broadband infrastructure strategies for the 21st Century.

Collaborate with economic development agencies.

Differentiate itself with advanced broadband connectivity.

Become a magnet for dynamic businesses and industries.

Who You Will Meet:

Mayors . . . City Managers . . . City Council Members . . . County Commissioners and Administrators . . . Other Local, State, County, Regional & Federal Officials . . . City and Regional Planners . . . IT Directors . . . Network Managers and Engineers . . . Economic Development Professionals . . . Policy Managers . . . GIS Coordinators . . . Electric Cooperative Executives . . . Public Safety Directors . . . School & Library Administrators . . . Housing Officials . . . Health Experts . . . Investors and Lenders . . . Chamber of Commerce and Business Leaders . . . Financial Institutions . . . Community Anchor Institutions . . . Broadband Champions and Project Leaders . . . and others!

A Key Theme Of Conference:

How To Leverage Your Fiber For Economic Development

Once you have your network, how do you get business to make the most of it?

The first two Broadband and Economic Development Conferences hosted by Broadband Communities Magazine - in Danville, Va., and Tinley Park, Ill. - drew enthusiastic reviews from attendees. And, the magazine has been covering the topic and sponsoring programs at our annual Summit on the relationship between broadband and economic development for the past decade.

This is the only conference of its kind, entirely devoted to the relationship between advanced broadband infrastructure and economic development.
