RE: NJDOT Hackettstown Maintenance Yard  
Route 46 West, M.P. 23, Washington, NJ  
Public Notification Documents

Dear Ms. Caruso:

In accordance with N.J.A.C. 7:26E1.4 we are submitting this Public Notification package regarding the on-going remediation at the New Jersey Department of Transportation (NJDOT) Hackettstown Maintenance Facility in Washington Township. The package includes a remediation site Fact Sheet and Sensitive Receptor map (Attachment A), and certified 200-ft radius searches from Washington Township and Mt. Olive, in addition to copies of the public notification letters submitted to residents and entities located within 200-feet of the site (Attachment B).

Should you have any questions concerning this matter, you may contact the undersigned by phone (973) 576-9648.

Sincerely,  
Dewberry Engineers Inc.

William S. S. Pendexter, PhD, LSRP  
Senior Hydrogeologist/Senior Project Manager

**RE: Public Notification of Environmental Remediation  
NJDOT Hackettstown Maintenance Yard, M.P. 23 Rt. 46, Washington Township, NJ**

Dear New Jersey Natural Gas Co. Representative:

On behalf of the New Jersey Department of Transportation (NJDOT), Dewberry Engineers Inc. (Dewberry) has completed remediation of environmental contamination at the NJDOT Hackettstown Maintenance Facility located at MP 23 Route 46 and Drakestown Road in Washington Township, Morris County, New Jersey. The work was conducted under rules established by the New Jersey Department of Environmental Protection (NJDEP), which has assigned it case number 96-03-04-1817-58. The remediation was prompted by the presence of volatile organic compounds (VOCs) in groundwater, and the remediation involved in-situ groundwater remediation and monitoring. The preparation of a Remedial Action Outcome (RAO) report documenting closure of the petroleum-related VOC plume to be submitted to the NJDEP is currently in progress.

During the course of the work, periodic updates about the progress were be made available to Washington Twp. and Mt. Olive officials and are available to you upon request. Should you have any questions regarding the work, you can contact me at 609-530-2257 to answer any questions you may have.

We hope the work we conducted will restore the property as a valuable asset to the neighborhood. In the meantime, we appreciate your concerns and your patience and pledge to conduct our work efficiently and as responsible members of the community.

Sincerely,

Robert Lane  
Section Chief

The remediation was prompted by the presence of volatile organic compounds (VOCs) in groundwater, and the remediation involved in-situ groundwater remediation and monitoring. The preparation of a Remedial Action Outcome (RAO) report documenting closure of the petroleum-related VOC plume to be submitted to the NJDEP is currently in progress.

During the course of the work, periodic updates about the progress were be made available to Washington Twp. and Mt. Olive officials and are available to you upon request. Should you have any questions regarding the work, you can contact me at 609-530-2257 to answer any questions you may have.

We hope the work we conducted will restore the property as a valuable asset to the neighborhood. In the meantime, we appreciate your concerns and your patience and pledge to conduct our work efficiently and as responsible members of the community.

Sincerely

Robert Lane

**RE: *Public Notification of Environmental Remediation  
NJDOT Hackettstown Maintenance Yard, M.P. 23 Rt. 46, Washington Township, NJ***

Dear Columbia Gas Transmission Representative:

On behalf of the New Jersey Department of Transportation (NJDOT), Dewberry Engineers Inc. (Dewberry) has completed remediation of environmental contamination at the NJDOT Hackettstown Maintenance Facility located at MP 23 Route 46 and Drakestown Road in Washington Township, Morris County, New Jersey. The work was conducted under rules established by the New Jersey Department of Environmental Protection (NJDEP), which has assigned it case number 96-03-04-1817-58. The remediation was prompted by the presence of volatile organic compounds (VOCs) in groundwater, and the remediation involved in-situ groundwater remediation and monitoring. The preparation of a Remedial Action Outcome (RAO) report documenting closure of the petroleum-related VOC plume to be submitted to the NJDEP is currently in progress.

During the course of the work, periodic updates about the progress were made available to Washington Twp. and Mt. Olive officials and are available to you upon request. Should you have any questions regarding the work, you can contact me at 609-530-2257 to answer any questions you may have.
