## REGIONAL COLLABORATIVE ACTIVITIES

### September 6—Baykeeper Paddle on Matawan Creek

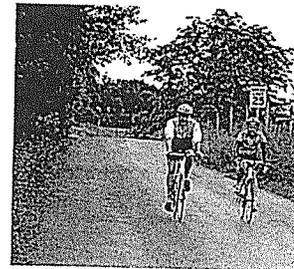

Join the NY/NJ Baykeeper for a paddle on Matawan Creek, Saturday, September 6 from 5:00 to 7:00 pm starting and ending at Brown Point's Marina, 357 West Front Street, Keyport, NJ. This paddle is beginner friendly. You can bring your own kayak or borrow one of theirs. Visit [nynjbaykeeper.org/events](http://nynjbaykeeper.org/events) to register.

[\(back to top\)](#)

---

### September 6—Sourland Spectacular Bicycle Rally

Enjoy a gorgeous rural ride on paved roads through the Sourland Mountain forest. After your ride or hike, enjoy a gourmet lunch with a homemade brownie sundae for dessert. The Sourland Spectacular bicycle rally will include stops at several farms, where cyclists will be able to enjoy samples of locally-produced treats. Keep an eye on the event web site for this year's routes!

Early Registration Discount is Still in Effect. Register soon to get the best price (\$35 per adult rider) and assure that you'll get this year's swag -- a "polar"-style insulated water bottle. ## September 9—Learn How to Stop Alien Invaders

Climate change — with its increasing frequency of extreme weather events and its ability to alter critical components of natural systems such as temperature, precipitation, atmospheric composition and land cover

NJ Invasive Species  
Strike Team

— is opening doors to invasive species, but we do not have to stand idly by. We can arm ourselves with knowledge about the invasive species most likely to cross New Jersey's thresholds, be on the lookout for them and strike as soon as they are detected!

Participants in this workshop will gain insight into how climate change may affect the spread of invasive species, learn which species are on New Jersey's doorstep, and get up-close and personal with some of the species we are concerned about as we take a walk along a trail at the Watershed Reserve. You'll be introduced to two great new free tools to help you recognize, treat and report invasive species in your watershed, and you'll leave feeling empowered to help your members become engaged as citizen scientists in the work to protect your watershed from the threats posed by invasive species.

The Workshop is Tuesday, September 9 from 10:00 am to 12:30 pm at The Watershed Institute, 31 Titus Mill Road, Pennington. The workshop will include both indoor & outdoor components, so please dress

comfortably. We'll provide beverages & light snacks for those who would like to stay after the program. *RSVP to Kate Miller by Sept. 5th, 2014 at [kmiller@thewatershed.org](mailto:kmiller@thewatershed.org) or (609) 737-3735 x 27.*

## September 11 or 12—Orientation for New Master Gardener Classes in Middlesex County

A new season of Master Gardener classes will be starting soon at the Middlesex County EARTH Center in Davidson Mill Pond Park, 42 Riva Ave., South Brunswick.

Master Gardeners are community volunteers trained in earth-friendly gardening and environmental principles. These lecture classes will meet once per week for 3 hours each from mid-September through mid-April. The 60 to 70 hours of classroom instruction include practical field experience.

Optional orientation sessions are scheduled for 6:30 p.m. Sept. 11 for the Thursday evening class and 9:30 a.m. Sept. 12 for the Friday morning class. Classes begin Sept. 18 or 19. They are open to all New Jersey residents.

"Middlesex County is currently the only county that offers the Master Gardeners course in the evenings," said Freeholder Kenneth Armwood, Chair of the County's Business Development and Education Committee. "I encourage residents to take advantage of this opportunity to learn from some of the County's most knowledgeable gardeners."

Outdoor, hands-on garden classes will meet weekly for 3 hours each from mid-April through mid-September (every other week in summer). New students create and care for large demonstration vegetable and herb gardens.

Topics covered will include: sound gardening techniques; composting; creative methods of conserving resources; and horticulture therapy. The program also requires participants to volunteer some hours of service

toward Extension Services projects, activities and events throughout the year.

"This popular program is just another way that the County can meet the needs of our residents while offering quality and fun education," said Freeholder Director Ronald G. Rios. "I commend the Rutgers Cooperative Extension's Master Gardener program for all of the earth-friendly and educational programs they provide."

All classes are offered at the EARTH Center, in Davidson's Mill Pond Park, 42 Riva Ave., South Brunswick. Interested parties can call the EARTH Center at 732-398-5278 for more information or visit [www.co.middlesex.nj.us/extensionservices](http://www.co.middlesex.nj.us/extensionservices).

Rutgers Cooperative Extension educational programs are offered to all without regard to race, religion, color, age, national origin, gender, sexual orientation, or disability.

## September 12— Celebrate Sandy Batty's 29 Years of Service

Please join ANJEC to celebrate Executive Director Sandy Batty's 29 years of service to New Jersey's environmental movement on Friday, September 12 at the Basking Ridge Country Club, 185 Madisonville Road, Basking Ridge, NJ. A cocktail reception starts at 6:00 pm and dinner will follow at 7:00 pm. Donations in excess of the \$100 ticket cost will help establish the Sandy Batty Grant Fund for pass-through grants to municipal environmental commissions. The grants give environmental commissions the ability to carry out hands-on projects that enhance open space in their town. An anonymous donor and the ANJEC Trustees have pledged to match all donations up to \$25,000. All donors will be acknowledged in the event program. Reservations must be made by September 2, 2014. Contact [info@anjec.org](mailto:info@anjec.org) or call (973) 539-7547.

[\(back to top\)](#)

## September 12—Deadline for ANJEC Environmental Achievement Award Nominations

The Association of New Jersey Environmental Commissions Environmental Achievement Award program recognizes exceptional projects carried out by environmental commissions and groups. Projects begun after 1/1/12 and completed by 8/31/14 are eligible for nomination for a 2014 Award. ANJEC grant projects are not eligible for this award.

The awards will be presented on Friday, October 24, at the ANJEC Environmental Congress. Award winners are encouraged to bring an exhibit for display at the Congress.

Award categories include: Environmental Commission Projects, New Environmental Commission Projects (for commissions formed after 12/31/2011), and Non-Profit or Community Organization or Board (local, regional or state-wide). For more information and to secure a Nomination Form, visit the ANJEC Website at [www.anjec.org](http://www.anjec.org).

## September 12—Discovering Meadows for Professionals Program

Duke Farms is proud to offer the second annual Discovering Meadows for Professionals Program! This year's program, "*The Story of Meadows*", is designed to walk you through the development of a meadow from site preparation through post-planting maintenance while explaining the ecology of meadows in this region. Neil Diboll, President of Prairie Nursery, will present the keynote, "Five Steps to Successful Meadow Establishment."

Invasive Species  
Strike Team

Participants in this workshop will gain insight into how climate change may affect the spread of invasive species, learn which species are on New Jersey's doorstep, and get up-close and personal with some of the species we are concerned about as we take a walk along a trail at the Watershed Reserve. You'll be introduced to two great new free tools to help you recognize, treat and report invasive species in your watershed, and you'll leave feeling empowered to help your members become engaged as citizen scientists in the work to protect your watershed from the threats posed by invasive species.

The Workshop is Tuesday, September 9 from 10:00 am to 12:30 pm at The Watershed Institute, 31 Titus Mill Road, Pennington. The workshop will include both indoor & outdoor components, so please dress

comfortably. We'll provide beverages & light snacks for those who would like to stay after the program. *RSVP to Kate Miller by Sept. 5th, 2014 at [kmiller@thewatershed.org](mailto:kmiller@thewatershed.org) or (609) 737-3735 x 27.*

## September 11 or 12—Orientation for New Master Gardener Classes in Middlesex County

A new season of Master Gardener classes will be starting soon at the Middlesex County EARTH Center in Davidson Mill Pond Park, 42 Riva Ave., South Brunswick.

Master Gardeners are community volunteers trained in earth-friendly gardening and environmental principles. These lecture classes will meet once per week for 3 hours each from mid-September through mid-April. The 60 to 70 hours of classroom instruction include practical field experience.

Optional orientation sessions are scheduled for 6:30 p.m. Sept. 11 for the Thursday evening class and 9:30 a.m. Sept. 12 for the Friday morning class. Classes begin Sept. 18 or 19. They are open to all New Jersey residents.

"Middlesex County is currently the only county that offers the Master Gardeners course in the evenings," said Freeholder Kenneth Armwood, Chair of the County's Business Development and Education Committee. "I encourage residents to take advantage of this opportunity to learn from some of the County's most knowledgeable gardeners."

Outdoor, hands-on garden classes will meet weekly for 3 hours each from mid-April through mid-September (every other week in summer). New students create and care for large demonstration vegetable and herb gardens.

Topics covered will include: sound gardening techniques; composting; creative methods of conserving resources; and horticulture therapy. The program also requires participants to volunteer some hours of service

toward Extension Services projects, activities and events throughout the year.

"This popular program is just another way that the County can meet the needs of our residents while offering quality and fun education," said Freeholder Director Ronald G. Rios. "I commend the Rutgers Cooperative Extension's Master Gardener program for all of the earth-friendly and educational programs they provide."

All classes are offered at the EARTH Center, in Davidson's Mill Pond Park, 42 Riva Ave., South Brunswick. Interested parties can call the EARTH Center at 732-398-5278 for more information or visit [www.co.middlesex.nj.us/extensionservices](http://www.co.middlesex.nj.us/extensionservices).

Rutgers Cooperative Extension educational programs are offered to all without regard to race, religion, color, age, national origin, gender, sexual orientation, or disability.

## September 12— Celebrate Sandy Batty's 29 Years of Service

Please join ANJEC to celebrate Executive Director Sandy Batty's 29 years of service to New Jersey's environmental movement on Friday, September 12 at the Basking Ridge Country Club, 185 Madisonville Road, Basking Ridge, NJ. A cocktail reception starts at 6:00 pm and dinner will follow at 7:00 pm. Donations in excess of the \$100 ticket cost will help establish the Sandy Batty Grant Fund for pass-through grants to municipal environmental commissions. The grants give environmental commissions the ability to carry out hands-on projects that enhance open space in their town. An anonymous donor and the ANJEC Trustees have pledged to match all donations up to \$25,000. All donors will be acknowledged in the event program. Reservations must be made by September 2, 2014. Contact [info@anjec.org](mailto:info@anjec.org) or call (973) 539-7547.

## September 12—Deadline for ANJEC Environmental Achievement Award Nominations

The Association of New Jersey Environmental Commissions Environmental Achievement Award program recognizes exceptional projects carried out by environmental commissions and groups. Projects begun after 1/1/12 and completed by 8/31/14 are eligible for nomination for a 2014 Award. ANJEC grant projects are not eligible for this award.

The awards will be presented on Friday, October 24, at the ANJEC Environmental Congress. Award winners are encouraged to bring an exhibit for display at the Congress.

Award categories include: Environmental Commission Projects, New Environmental Commission Projects (for commissions formed after 12/31/2011), and Non-Profit or Community Organization or Board (local, regional or state-wide). For more information and to secure a Nomination Form, visit the ANJEC Website at [www.anjec.org](http://www.anjec.org).

## September 12—Discovering Meadows for Professionals Program

Duke Farms is proud to offer the second annual Discovering Meadows for Professionals Program! This year's program, "*The Story of Meadows*", is designed to walk you through the development of a meadow from site preparation through post-planting maintenance while explaining the ecology of meadows in this region. Neil Diboll, President of Prairie Nursery, will present the keynote, "Five Steps to Successful Meadow Establishment."

## September 9—Learn How to Stop Alien Invaders

Climate change — with its increasing frequency of extreme weather events and its ability to alter critical components of natural systems such as temperature, precipitation, atmospheric composition and land cover

— is opening doors to invasive species, but we do not have to stand idly by. We can arm ourselves with knowledge about the invasive species most likely to cross New Jersey's thresholds, be on the lookout for them and strike as soon as they are detected!

NJ Invasive Species  
Strike Team

Participants in this workshop will gain insight into how climate change may affect the spread of invasive species, learn which species are on New Jersey's doorstep, and get up-close and personal with some of the species we are concerned about as we take a walk along a trail at the Watershed Reserve. You'll be introduced to two great new free tools to help you recognize, treat and report invasive species in your watershed, and you'll leave feeling empowered to help your members become engaged as citizen scientists in the work to protect your watershed from the threats posed by invasive species.

The Workshop is Tuesday, September 9 from 10:00 am to 12:30 pm at The Watershed Institute, 31 Titus Mill Road, Pennington. The workshop will include both indoor & outdoor components, so please dress

comfortably. We'll provide beverages & light snacks for those who would like to stay after the program. *RSVP to Kate Miller by Sept. 5th, 2014 at [kmiller@thewatershed.org](mailto:kmiller@thewatershed.org) or (609) 737-3735 x 27.*
