 SMART & RESILIENT CITIES

1

6 great reads on procurement innovation

Innovation in procurement is without doubt one of the most challenging aspects of smart and resilient city evolution. As we have written in the past, these terms to many are almost oxymoronic. But many cities realize that accelerating innovation and providing an expeditious way to get these...

'Butt dials' straining 911 emergency system

As if that's not enough, now they're facing another challenge: butt dialing. Accidental calls make up a significant percentage of 911 calls in San Francisco, according to new research by Google that seeks to explain a huge increase in emergency calls in that city. [Read More at CNN](#)

7 "Complete Streets" strategy stories to watch

According to the Complete Streets Coalition, "Complete Streets are streets for everyone. They are designed and operated to enable safe access for all users, including pedestrians, bicyclists, motorists and transit riders of all ages and abilities. Complete Streets make it easy to cross the street,..."

Tallying the ROI of resilient buildings

If there's one thing the real estate industry doesn't like, it's financial uncertainty. With developers constantly trying to balance long project timelines and pressure to deliver short-term profits, unexpected costs such as new construction requirements or city fees usually are accused of...

The potential of partnerships for improving public transit

Oakland, Calif. -- Against the backdrop of growing pains in the new gig economy's ridesharing sector, panelists at the Code for America Summit on Sept. 30 discussed the pros and cons of public-private transportation partnerships. [Read More at Gen](#)

Organizational Resilience

We hear a lot these days about coping with escalating threats to our cities and beyond, whilst at the same time, even greater drivers are reducing costs and increasing business competence. This is where Organizational Resilience (OR) can be of great benefit as a united approach in the face of..

Is your smart cities supplier positioned for future success?

What lessons can be drawn as the Smart City concept enters its second decade? As I open a new chapter in my career, I've been reflecting on the last 9 years of my life in smart cities. So far it's been a fascinating journey and I feel privileged and grateful to have been at the forefront of the...
