 SMART & RESILIENT CITIES

1

Smart City Development Is A Marathon, Not A Sprint

Chula Vista took a decade to ensure the West Coast's largest waterfront smart development is built with sustainability in mind. Chula Vista, California, began drawing up its Smart City Roadmap a little over a year ago, but in some ways the municipality's plan for sustainable smart...

Plastic Bean-Shaped Sensors Monitor Crops For Precision Agriculture

Thumb-sized "plastic beans," are being filled with sensors and tossed into grain bins and storage facilities for precision agriculture, getting rid of the need for handheld devices or elaborate moisture monitoring systems, according to an article on Farm Journal's AGWeb. The sensor pods...

A 'Silver Tsunami' is looming

Workers in the United States are aging...and aging so quickly it frightens most employers. The U.S. Census Bureau estimates that 10,000 Baby Boomers will celebrate a 65th birthday every single day between now and 2030. For perspective, the largest stadium in the NFL - MetLife Stadium in New Jersey -...

Smart City Place Branding: Are You Leveraging the College Visit ?

I went through extreme nostalgia last week during a business trip to Burlington, Vermont, the idyllic city on Lake Champlain that is the home to the University of Vermont and Champlain College. It happened that my visit coincided with the recent spring vacation for high schoolers across New...
