State of Our Watershed Set for Dec. 3

Join RHA for breakfast on Saturday, December 3, when we'll present our findings on the health of the region's water supplies from our stream monitoring, bacterial monitoring and well testing programs. **Jeffrey Hoffman, State Geologist**, will be this year's keynote speaker.

[Learn more and register today!](#)

Well Testing Offered Year Round

As our [Fall Community Well Test Program](#) comes to a close, we'd like to thank our municipal partners for offering convenient and affordable well water testing in their communities.

Residents are invited to test their water any time during the year through our [Individual Well Test Program](#).

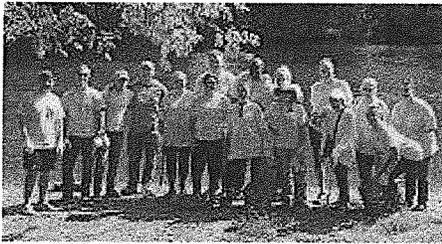

Questions? Call 908-234-1852, ext. 401, or email welltesting@raritanheadwaters.org.

Join Our Festive Parade of Lanterns

Celebrate the European *Laternelaufen* tradition of welcoming autumn at our annual **Lantern Walk, Sunday, November 13 from 5-7 pm**. Festive music will accompany revelers carrying illuminated paper lanterns through the meadows at Fairview Farm. Hot apple cider and snacks can be enjoyed around the bonfire.

[Learn more and reserve your lantern!](#)

MillerCoors Cleans Up!

A big thank you to employees of MillerCoors who removed a significant amount of debris from Branchburg's Ten Eyck Park, along the North Branch of the Raritan River. Ducking under trees and wading through prickly bushes, they filled dozens of

bags with trash, which would have washed into the river during a flood event.

Interested in scheduling a workday with RHA? Contact [George Schaberg](#), Land Projects Manager.

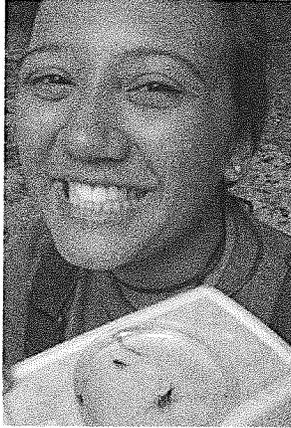

What a Day!

We'd like to thank everyone who joined us at this year's **Old Fashioned Country Fair** on October 9. Pumpkins, hayrides and a fun fall spirit made for a great day at Fairview Farm.

A special thanks to all the volunteers, including a group of employees from Etsy who helped us get ready for the big day.

Meet Our New Watershed Ambassador

A warm welcome to Carmela Buono, RHA's 2016-2017 AmeriCorps Ambassador. Carmela is a recent graduate from Rutgers University with her BS in Ecology, Evolution, and Natural Resources. During her time at Rutgers Carmela studied invasive plants and how they affect forest restoration.

Learn more about the [AmeriCorps NJ Watershed Ambassador Program](#).

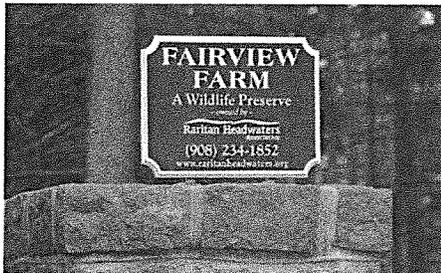

On the Watchdog Front

A recent study by the Environmental Working Group (EWG) made national headlines by asserting that **chromium-6, the "Erin Brockovich" chemical**, contaminates the drinking water of over 200 million Americans, including public drinking water supplies in at least 138 New Jersey communities. [Read more.](#)

Come to our next Morning Call on **November 17**, beginning at 8:00am at Fairview Farm, to learn more about chromium, the silent poison.

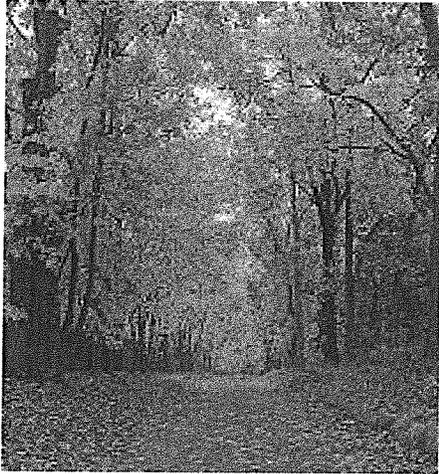

Did You Know?

A walk at [Fairview Farm](#) can take you through several unique habitats - meadow, forestland, succession forest and wetlands - where you will enjoy local wildlife in a bucolic setting.

Our 170 acre preserve is open dawn till dusk, 7 days a week. You may even see a black bear...or three. **Get the bear facts.**
