PUBLIC NOTICE

Request for NJDEP Freshwater Wetland General Permit
And Flood Hazard Area Individual Permit

Date: 11/24/15

Re: Application submitted by: Mount Olive Village Sewer Co. Inc.

Regarding property at:

Wolfe Road
Portion of Block 8101, Lot 7
Mount Olive Village Sewer Co. Inc.
Mount Olive Township, Morris County, New Jersey

Dear Mount Olive Township Municipal Clerk:

This letter is to notify you that applications for permits/approvals are being submitted to the New Jersey Department of Environmental Protection (NJDEP) under the *Freshwater Wetlands Protection Act Rules* (N.J.A.C. 7:7A) and the *Flood Hazard Area Control Act Rules* (N.J.A.C. 7:13) for the project described on the attached DLUR application form. The freshwater wetland permit will authorize the conducting of regulated activities on the property. A flood hazard area individual permit is required for this project because some of the work is proposed in a flood hazard area or in a riparian zone.

Under the submitted applications the following approvals are being sought:

- Freshwater Wetlands General Permit – authorizes regulated activities, such as construction or development, in wetlands and adjacent transition areas
- Flood Hazard Area Individual Permit – authorizes regulated activities, such as construction or development, in flood hazard areas and riparian zones

The activities for which the applications requests NJDEP approval are:

- Cutting or clearing of vegetation and regrading for retaining wall reconstruction

Enclosed are three (3) copies of this notice letter; please retain one copy of this letter within your office for public inspection if requested, and distribute one copy of the notice to the township planning board and township environmental commission if any. Also enclosed is a complete copy of the freshwater wetlands application package that should be retained in your office for public inspection if requested.

The rules governing freshwater wetlands permits and approvals are found in the NJDEP's *Freshwater Wetlands Protection Act Rules* at N.J.A.C. 7:7A; the rules governing flood hazard area permits are found in the NJDEP's *Flood Hazard Area Control Act Rules* at N.J.A.C. 7:13. You can view or download both sets of these rules on the NJDEP Land Use Regulation Program website at www.state.nj.us/dep/landuse, or you can find a copy of these rules in the county law library in your county courthouse.

As part of the NJDEP's review of the freshwater wetlands permit application, NJDEP personnel may visit the subject property, and the portion of any neighboring property that lies within 150 feet of the subject property line, to perform a site inspection. This site inspection will involve only a visual inspection and possibly minor soil borings using a 4" diameter hand auger. The inspection will not result in any damage to vegetation or to property improvements.

The NJDEP welcomes any comments you may have on the freshwater wetlands permit application. If you wish to comment on my application, comments should be submitted to the NJDEP *in writing* within 30 days after the Department publishes notice of the freshwater wetlands permit application in the DEP Bulletin. The Department shall consider all written comments submitted within this time. The Department may, in its discretion, consider comments submitted after this date. Comments cannot be accepted by telephone. Please submit any comments you may have *in writing, along with a copy of this letter*, to:

New Jersey Department of Environmental Protection
Division of Land Use Regulation
Mail Code 501-02A / PO Box 420
Trenton, New Jersey 08625-0420
Attn.: Transportation Unit Chief

If you have any comments or questions regarding the flood hazard area application, please write to the Department at the following address and include a copy of the first page of the attached application form:

Attn: Engineering Supervisor for Morris County
New Jersey Department of Environmental Protection
Division of Land Use Regulation
Mail Code 501-02A
PO Box 420
Trenton, New Jersey 08625-0420

Your comments regarding the flood hazard area application must be sent within 15 calendar days of your receipt of this letter to ensure that the Department will be able to consider your concerns during its review of this application. You can submit comments after this date but the Department may not be able to address your concerns. You can also contact the Department by telephone at (609) 292-0060 and can obtain general information about the flood hazard area program at the following website: www.nj.gov/dep/landuse.

When the NJDEP has decided whether or not the freshwater wetlands permit application qualifies for approval under the Freshwater Wetlands Protection Act rules, NJDEP will notify the municipal clerk of the final decision on the application.

If you have any questions about the application, please feel free to contact me at (908) 654-4360.

Sincerely,

Henryk Schwarz, Mount Olive Village Sewer Co., Inc.

Appendix II - Fee Calculation Sheet (Required)

Directions:

The Fee Calculation sheet is broken down by the types of programs administered by the Division of Land Use Regulation: Coastal, Flood Hazard Area, Freshwater Wetlands, Stormwater Review.

Use the abbreviation key below in order to identify the type(s) of applications that you need to submit for your project. Once you find your application type(s) work through the **calculation column** and place the figure on the **fee amount** line. Do this for each application type and subtotal each section. In section 5 – enter the subtotals as indicated and add the fee figures to find your total fee.

- Whenever the calculation requires an acreage figure, you will need to round UP to the nearest whole number, for example: 0.25 acres gets rounded up to one (1) acre or 2.61 acres gets rounded up to three (3) acres.
- The maximum fee for a CZMRA Individual permit, an Upland Waterfront Development permit, or an In-Water Waterfront Development permit is \$30,000 per permit type. For example: if you are applying for both an upland and an in-water Waterfront Development the maximum fee is applied to each permit for a maximum total of \$60,000 plus any applicable stormwater review fee.
- No matter how many types of applications are required, the stormwater review fee is applied only one time.
