**Rutgers Scarlet Strawberry - An Intensive Workshop**

***A unique, long form workshop about Organic Strawberry Production and breeding at our Winter Conference.***

***Professor Bill Hlubik, part of the Rutgers Scarlet Strawberry team.***

Come and learn how new varieties of strawberries are bred and propagated using traditional methods. This workshop will be held in the Rutgers Research Greenhouse on Saturday Afternoon and will run for 2 hours, diving deep into developing varieties and traits (non-GMO), new and different varieties available, and growing strawberries in an organic system using different methods. Professor Hlubik will be presenting with his colleagues Angela Monaghan and Matt Milburn.

This is just one example of the intensive workshops we will be offering at the Winter Conference this year. You can look forward to other long-form programming running on Sunday, with a tour of the Rutgers Soil Lab, a tool demonstration in a green house, and a yoga / movement class to keep your body in tip top shape!

**[Follow this link to our Winter Conference Sessions page to see our growing list of workshops.](#)**

Just 16 more days to register as an Early Bird – Save \$30 by signing up today.
