DEP COMMISSIONER MARTIN, ARMY CORPS OF ENGINEERS KICK OFF LONG BEACH ISLAND POST-SANDY BEACH CONSTRUCTION PROJECT *\$128 MILLION PROJECT PART OF CHRISTIE ADMINISTRATION'S COASTAL RESILIENCY STRATEGY*

TRENTON – On Thursday, May 7, at 10:30 a.m. Department of Environmental Protection (DEP) Commissioner Bob Martin will join U.S. Army Corps of Engineers officials, U.S. Congressman Frank LoBiondo (NJ-02), Ocean County officials and local officials in launching a major coastal construction project on Long Beach Island.

A **news conference will be held at the beach on East 5th Street in Ship Bottom** for the start of the \$128 million project, which will see the construction of 12.7 miles of dunes and beaches on the popular barrier island.

The projects are being funded through \$1.2 billion appropriated by Congress to rebuild and strengthen New Jersey's coastline to better protect shore communities following Superstorm Sandy in October 2012. Construction of a statewide coastal protection system is a key component of the Administration's post-Sandy storm recovery and resiliency strategy.

Directions to East 5th Street, Ship Bottom From Garden State Parkway

- Take Exit 63A toward Route 72 East.
- Go about 7 miles on Route 72 East into Long Beach Island
- Make left onto Long Beach Boulevard (CR-607). Go 500 feet
- Make right on to East 5th Street.
